The Mission of the Foundation

For The Kids Foundation, Incorporated is a non-profit organization established to provide childhood cancer patients and their families with social services while patients are in and out of the hospital and also childhood cancer advocacy.

While other organizations raise money for funding research and cures, our organization focuses on the patients by providing fun activities to inpatients and outpatients. Our organization also promotes childhood cancer awareness by providing educational material on symptoms of childhood cancer and early detection advocacy. The organization strives to provide information that would eliminate the many cases of childhood cancer that are misdiagnosed so frequently.

Our foundation operates on the generosity of donors just like you. Please consider making a tax deductible contribution today. There is a form you can use on the back of this brochure.

Together, we can help win the battle against childhood cancer and blood disorders.

How it all began

As a parent of a child battling cancer I know first hand the effects that this disease can have not only on the child but the family as well. That is why I chose to make it my crusade to help childhood cancer families in any way that I could.

What started out as volunteering for other organizations and raising funds for charities turned into starting my own support organization. There can never be too many organizations and foundations to help children with cancer.

My wife and I have given money to children with cancer to buy clothes for school, we have bought special treats for the patients on the hematology / oncology floor at our local children's hospital. We strive to help other children and their families through this horrible battle.

After meeting so many patients and their parents one thing became obvious, the rate for misdiagnosing cancer is astonishingly high. I have met many patients who were misdiagnosed for several months before the cancer was found. It has now become a priority for the foundation, my wife and I to publicly educate parents on the signs and symptoms of cancer and to push for testing to eliminate misdiagnosis.

This is more than a mission, it far outweighs a crusade, this is life saving work in a battle that too many are losing. We will not stop!

- Sean Hoover, President and Founder

Services We Provide

Studies have shown that laughter and humor has powerful healing powers. For The Kids Foundation provides humor and laughter healing to patients in the hospital through the use of clowns, magicians, special treats from special places and more.

- Clown Visits
- Magic Shows
- Ice Cream Treats
- Dinner for families in the hospital
- Medical expense assistance
- Activities for hospital patients
- Special gifts
- Childhood cancer educational material

If you know someone who may benefit from our organization please call the phone number listed.
